PROJECTS

Musicana

Aug 2022 - Apr 2023

<https://musicana.netlify.app/>

This Redux.js integrated Spotify music player built with React.js and Styled-Components offers a customizable interface with a powerful state management system for seamless music streaming.

Dikshant Portfolio

Mar 2023 - Apr 2023

<https://dikshant-studio.netlify.app/>

Firebase and Next.js-based gallery app for your brother to showcase his photography skills. Allows easy uploading and categorization of photos, and offers a clean interface for viewers to browse through.

TourTribes

Apr 2023 - Present

<http://project-tour-vibes.vercel.app/>

This Next.js and TypeScript-based webdev project connects solo travelers developed with TailwindCSS-styled interface with Express backend. It offers a user-friendly platform for finding travel companions and planning trips together.
